COOLIDGE NAVAL PARLEY IS IN A DEADLOCK

MAY WRECK SAME AS LEAGUE COMMISSION

FATAL PROBLEM RANGES ON
QUESTION OF NAVAL
LIMITATION

BASIS OF TONNAGE OR TOTAL
NUMBER OF VES-
SELS

By HENRY WOOD
(United Press Staff Correspondent)

Geneva, July 7. — The Coolidge naval armaments conference remained deadlocked today over precisely the same kind of question as that which wrecked the League's preparatory disarmament commission. The question was whether naval limitation should be determined on a basis of total tonnage or total number of vessels.

At the preparatory conference, France insisted on the adoption of a limitation program on a basis of total tonnage. Great Britain insisted equally on the fixing of the precise number of ships in each category. Neither gave in, and the conference ended in failure.

At the present conference the United States delegation's attitude is similar to that of France, while Britain is again talking in number of ships. It is frankly admitted that the present conference may end the same way as the preparatory conference.

Thus far—and the conference is now almost at the end of its third week—the British and American representatives have found virtually no common ground for discussion. When the British talk of the number of ships they want in each category, the Americans immediately try to translate numbers into tonnage.

Likewise, when the United States delegation sets forth its claims in total tonnage, the British commission tries to translate tonnage into numbers of ships.

Hence, the negotiations to date have traveled in a vicious circle.

The Americans insisted that their present efforts to induce the British to reduce their demand for cruisers is not due to a desire to deprive Great Britain of a force which that country considers necessary to protect its trade routes. Rather, the United States delegation feels that unless Britain's demands are reduced and kept within the limits originally suggested by the United States, the conference will result in increased construction.

Geneva, July 7. — An executive session of President Coolidge's naval limitations conference was convened today for tomorrow to enable the chiefs of delegations to consider the uncompromising opposition of the United States and Japan to Britain's demands for large cruiser tonnage.

The conference has reached a stalemate which only could be overcome, it appears today, if Britain would give in.

Japan has explained a willingness to accept 250,000 tons as the maximum cruiser tonnage to be allotted any country and 200,000 tons for destroyers. The British demands range higher than 400,000 cruiser tons.

Unless Britain receded from her position, the fate of the conference probably would be decided tomorrow. But the American delegates today were optimistic of a mutually satisfactory agreement, at least with respect to destroyers and submarines. Japan's firm attitude in favor of keeping cruiser tonnage to the minimum limit first proposed by the United States has created an extremely critical situation.

By LUDWELL DENNY
(United Press Staff Correspondent)

Washington, July 7.—The Geneva naval conference will collapse unless Great Britain withdraws her cruiser demands, in the opinion of officials here today.

Secretary of State Kellogg has informed Sir Esme Howard, British ambassador, this government refused to discuss the British proposals entailing doubling of present British modern cruiser strength, and increasing of such American ships sixfold.

Kellogg repeated the American contention that total cruiser tonnage for the two countries should be fixed at 300,000 tons, approximately Britain's present modern ship strength. For the sake of an agreement, this government might raise the maximum figure, he said, but no figure

World's Most Spectacular Volcano In Eruption

10 MONTHS OLD BABY VICTIM OF AMMONIA

Detroit, July 7.—(UP)—A victim of ammonia which was poured down his throat and over his body while he slept, Alfred Cocking, Jr., ten months old, died today in children's hospital.

The baby was left alone for a few minutes yesterday and when the mother returned she found him strangling. The mattress in the crib was saturated with ammonia, and the baby's body soon became a solid blister. Dr. Milton D. Vokes said ammonia also had been poured down his throat. A Polish neighbor woman, who is also a former landlady of the Cockings, was arrested and held for investigation.

SCORCHING HEAT PROMISED FOR THE SOUTHWEST

INDICATIONS TEMPERATURES
WILL GO ABOVE YESTER-
DAY'S MARKS

95 AT KANSAS CITY, MO., 100 DE-
GREES IN SEVERAL
PLACES

Kansas City, Mo., July 7.—(UP)—Another day of scorching heat was promised the southwest today, with early reports indicating temperatures would go above those of yesterday. The thermometer touched 95 here, a record for the year, and reached 100 in several places.

Only one heat prostration was reported. One man collapsed in St. Joseph where a mark of 96 was reached. He was reported improved in a hospital there today.

Smith Center, Kans., Beatrice, Neb., and Winfield, Kans., were leaders in the heat with temperatures of 100 degrees. Points farther south experienced some relief with local showers.

While some towns in Kansas and Missouri reported rains, it was added that the rain didn't cool the atmosphere.

Chicago, July 7.—(UP)—Thunderstorms today moderated the heat wave which resulted in three deaths yesterday. One man was killed by lightning as he stood on the front porch of his home during a storm and more than 50 calls were received by the fire department when lightning struck buildings during the downpour.

Rain flooded basements in many sections and scores of automobiles on rural highways were ditched by the storms.

Western Illinois reported a severe hail storm last night.

American public opinion would resent an armament race disguised as a disarmament treaty, according to the secretary. He feels a "limitation" treaty materially increasing present auxiliary naval strength would be a travesty on the Washington treaty and on President Coolidge's call of the Geneva conference.

Reports from Geneva that Japan is siding with the United States for low cruiser limitation have encouraged officials here. But they are unable to understand under these circumstances why Great Britain continues to hold out for 500,000 to 600,000 ton quota. Some observers here hope the British taxpayers and public opinion will force the British admiralty to recede from its expensive position. Otherwise, it is generally assumed, the conference will fail.

Kellogg today held separate conferences with Sir Esme, Ambassador Matsudaira of Japan, and Secretary of Navy Wilbur.

Unless the British recede within a day or so, President Coolidge may make an important statement on the Geneva impasse. It can be stated authoritatively that the president, the state and navy departments are all agreed that under no condition can the United States accept the British proposals.

The daily optimistic statements from Kellogg have ceased. The administration has not yet given up hope of an agreement, but officials now are facing calmly the possibility of a break-up of the conference without a treaty.

20 Men Aboard Motor Ship Face Death Today As Ship Pounds to Pieces Near Nome, Alaska

BRIEF RADIO MESSAGE TELLS SEA TRAGEDY

SHIP "BROWER" OF FRISCO RAN
AGROUND ON ROCKS
YESTERDAY

VESSEL FAILED TO FLOAT AT
HIGH TIDE, SEAS GROW
HEAVY

Seattle, Wash., July 7.—(UP)—Twenty men aboard the motor ship Brower of San Francisco faced death today when the ship was being pounded to pieces off St. Lawrence Island, north of Nome, Alaska, according to brief radio messages heard today by the Harbor Radio Station.

The messages said the vessel ran aground on rocks off the island yesterday and failed to float at high tide.

Heavy seas were pounding the ship today and the Nome messages said the men faced almost certain death unless aid was obtained.

The U. S. S. Algonquin of the coast guard service is in Alaskan waters south of Nome and headquarters here endeavored to communicate with it.

The region off which the Brower is aground is rocky and desolate and the men would encounter many hardships even if they had been able to make shore, the coast guard said.

AMID SCENES OF ARABIAN NIGHT SPLENDOR

KING GEORGE, DUKE OF YORK
AND PRINCE HENRY
BANQUETED

WERE GUESTS OF KING FAUD OF
EGYPT AT THE LEGA-
TION

By KEITH JONES
(United Press Staff Correspondent)

London, July 7.—Amid scenes of Arabian night splendor, King George, the Duke of York and Prince Henry were banqueted at the Egyptian legation last night as guest of King Faud of Egypt.

Through an atmosphere laden with the perfume of thousands of orchids and between walls hung with silken tapestries, soft-footed Nubians, gorgeously clad, glided about the guests seated at a horseshoe-shaped banquet table bearing Egyptian delicacies never before tasted in London.

Behind King George and King Faud two huge Nubians stood motionless throughout the banquet as bodyguards. From their positions on the wall, the stone heads of ancient Egyptian gods brooded over the table. Among them was the head of an unknown pharaoh of immense antiquity with the sacred serpent coiled at his forehead.

Additional touches of splendor, which brought gasps of wonder from the occidental guests, were seen in the drawing room. A shimmering gold piano rested on a thick, exquisite carpet. Chairs and settees glittered with gold and bore embroidery in rose and blue silk.

The guests caught a glimpse of the royal bedroom with its magnificent bed of blue silk canopy and silk rosebud embroidery.

The 50 guests included members of the cabinet but no women, in accordance with Egyptian custom.

BUS COLLIDES WITH AUTO; 20 PEOPLE HURT

Ypsilanti, Mich., July 7.—(UP)—Twenty persons were injured today when a Sun Line bus out of Chicago for Detroit collided with an automobile near here and turned on its side in a ditch.

FIND HORNED HUMAN SKULL, SPIKED TAIL

Silver Lake, Ore., July 7.—(UP)—With the possibility the remainder of the skeleton of what appears to be a horned human skull may have attached to it a spiked tail, George W. Marvin, curio collector, searched along the sand wastes here today.

In an excellent state of preservation, the skull was discovered buried in the sands near here. It has two horns, one of which is a perfect specimen. Scientists are preparing to examine the strange discovery.

PAUL KELLY IS FACING HIS PUNISHMENT

TAKES IT LIKE A MAN, TO BEGIN
LIFE ANEW AFTER
PRISON TERM

WAS CONVICTED OF MAN-
SLAUGHTER IN CONNECTION
WITH "FIST" MURDER

Los Angeles, Cal., July 7.—(UP)—Paul Kelly wants to take his punishment like a man and begin life anew after serving his time, his attorney, W. L. Gilbert, announced today.

Simultaneously, Gilbert announced that Kelly's appeal from his one to ten year sentence in San Quentin had been dismissed in the second district court of appeals on his recommendation.

Kelly was convicted of manslaughter in connection with the "fist" murder of Ray Raymond. Dorothy Mackaye, Raymond's wife, was sentenced to serve from one to three years in San Quentin for being an accessory in the same murder.

Miss Mackaye and Kelly were alleged to have been lovers.

50 TAMPA CIGAR Factories Close

16,000 WORKERS GO OUT ON
SYMPATHETIC
STRIKE

Tampa, Fla., July 7.—(UP)—Fifty Tampa cigar factories were closed today and 16,000 workers went out on a sympathetic strike for Nicolai Sacco and Bartolomeo Vanzetti, who are under sentence of death in Massachusetts. The strike will last only one day. A huge labor meeting will be held this afternoon to adopt resolutions urging clemency for the two convicts.

DECLARE CHINESE REBELS SEIZED TSING TAO, SHANTUNG

London, July 7.—(UP)—An exchange dispatch from Shanghai today said Chinese rebels had seized the town of Tsing Tao, Shantung, but were greatly outnumbered by other troops who were fiercely counter-attacking.

The dispatch said American and Japanese authorities were hurriedly reinforcing their forces at Tsing Tao.

OKLAHOMA CLAIMS YOUNGEST GRANDMA IN THE COUNTRY

Shawnee, Okla., July 7.—(UP)—Oklahoma claims one of the youngest grandmothers in the country, with the announcement that Mrs. C. L. Walker, who will celebrate her 32nd birthday in a short time, has become a grandmother.

A boy was born to Mrs. R. H. Howell, 16, daughter of Mrs. Walker. Mrs. Walker was married when she was 14.

SHEFFIELD IN 3 DAY CONFERENCE WITH COOLIDGE

REGARDING ADVISABILITY OF
HIS RESIGNATION AS
AMBASSADOR

PRESENT STATE OF MEXICAN AFFAIRS IS BEING CON-
SIDERED

By PAUL R. MALLON
(United Press Staff Correspondent)

Rapid City, S. D., July 7.—James R. Sheffield, ambassador to Mexico, arrived here today and went to the summer White House for a three day conference with President Coolidge regarding advisability of his resignation and the present state of Mexican affairs.

While Sheffield declined to discuss his anticipated resignation until he could see Mr. Coolidge, he indicated his desire to leave public life and expressed the belief that no change in the present policy of the United States toward Mexico would evolve from his visit with the chief executive.

General belief prevails among those close to the president that Sheffield came here to present his resignation because the climate in Mexico City does not encourage his health and because he personally favors a more stringent policy toward the southern republic.

MOVIE FILM MAKERS RESENT WAGE CUTS

PUT UP A PERMANENT DEFENSE
AGAINST THE MOVE-
MENT

SEEK CONTROLLING INFLUENCE
OF CLOSED SHOP OF ACTORS'
ORGANIZATION

Hollywood, Cal., July 7.—(UP)—Movie film makers including studio employees and stars have put up a permanent defense against a wage reduction now or at any future time. At a meeting of 1,000 of the most prominent in the film colony here last night it was decided that Hollywood film studios will operate henceforth under the closed shop of the Actors' Equity Association.

The present contracts are to be carried out, according to the agreement, and new contracts will be Equity contracts and will include Equity rules and minimum wage provisions.

Those who did not belong to the Equity flocked forward to pay their dues.

The proposed 10 to 25 per cent salary reduction of the producers suspended recently until Aug. 1, was not mentioned during the meeting but the decisions reached were generally accepted as a result of the effort to force lower salaries.

Henceforth, the Southern California executive committee of the Equity will negotiate with producers regarding the proposed wage slash, Frank Gilmore of New York, national executive secretary, presided at the meetings.

STEPS IN PATH OF CAR AND KILLED

Chicago, July 7.—(UP)—Haste to summon a physician to attend her dying mother caused Winifred Buckley, 24, to hurry cross the street in front of her home without looking for approaching traffic and she was struck by an automobile and killed. A double funeral was to be held today for the girl and Mrs. Ellen Buckley, her mother, who was found dead when the daughter was carried into the house.

Mrs. Buckley collapsed when she received a telegram telling of the death of a sister in Omaha, Neb., and never regained consciousness.

TRAIN PLUNGES INTO TORRENT; 9 ARE KILLED

Wernigerode, Saxony, July 7.—(UP)—The banks of a swollen stream in the Hartz mountains were being searched today for bodies of passengers lost when a train plunged into the torrent.

Nine persons were killed and 10 seriously injured when the engine and one coach left the tracks, weakened by a cloudburst.

The swirling waters carried the bodies downstream, making their recovery difficult.

The cloudburst did great damage in the mountains.

Wernigerode is a town of Prussian Saxony, 43 miles southwest of Magdeburg. The Hartz mountains are in northwestern Germany between the Elbe and Weser rivers.

"BREADBASKET OF THE WORLD" IS PROSPEROUS

REPORTS CURRENT THAT FARM-
ERS WILL HAVE BIG
WHEAT CROP

HARVESTING CARRIED ON FROM
THE DAKOTAS TO
TEXAS

Chicago, July 7.—(UP)—Through the great "Breadbasket of the World"—that agricultural area that extends down from the Dakotas to Texas—reports were current today that farmers will enjoy another season of prosperity through wheat production.

Harvesting is going on through the entire area now and indications from many sources were that the crop would be almost as large as that of 1926, despite unseasonable weather early this spring.

The crops in Kansas, Nebraska, Texas, Missouri and Oklahoma will fall slightly under the 1926 volume, according to reports to the United Press. This is mainly due to early spring floods but this condition will not prevent a year of prosperity. The Kansas yield now is expected to be about 120,000,000 bushels.

J. F. Jones, secretary of the Minnesota Farm Bureau Federation, told the United Press that wheat prospects in his district were even better than in 1926.

The outlook through the "corn belt" is not so good, however. From Iowa come reports that rain is needed badly in almost every section. Farmers report their crops are in need of moisture to mature properly.

In the Minnesota district corn is reported to be very backward with prospects of a poor crop.

Through the southwest farmers claim they are in need of rain in order to have good corn crops.

Although there have been numerous reports of corn borer and black rust west of known areas of infection, most of them cannot be confirmed.

SIPHONING LIQUOR FROM BONDED WAREHOUSES CHARGED

Chicago, July 7.—(UP)—Five men who organized a system of siphoning liquor from bonded warehouses chose to change their pleas to guilty today and accept a sentence of 18 months in federal penitentiary rather than face a maximum of 32 years imprisonment for violating the Internal Revenue law.

Those involved were: James "Fur" Sammons, William O'Donnell, Thomas Berry, and William Driscoll. They were indicted on several counts and had been found guilty of all allegations could have been sentenced to 32 years.

In addition to the prison sentence, Judge George Carpenter fined the gang \$1,500 each.

ROCKAWAY BEACH, ATLANTIC RESORT, HAS BIG FIRE

New York, July 7.—(UP)—Fire today destroyed three blocks of frame buildings along the ocean front at Rockaway Beach, leaving about 150 persons homeless. Loss was estimated at between \$100,000 and \$200,000.

FOUNTAINS OF LAVA LEAP 300 FEET IN HEIGHT

KILAUEA, ON HILO, HAWAII, IS
AGAIN SPITTING
FIRE

EARTHQUAKE ACCOMPANIED BY
ROAR OF INITIAL
ERUPTION

Hilo, Island of Hawaii, July 7.—(UP)—Fountains of lava leaping 300 feet through rolling clouds of dense steam and sulphurous fumes while subterranean explosions and hissing winds aroused the entire island, today ushered in the long awaited eruption of Kilauea (Lake of Fire), the world's most spectacular volcano.

Beginning at 1 A. M., with a slight earthquake and the appearance of a fiery fountain in the bottom of the great pit, a mile across and a thousand feet deep, the eruption increased until at dawn four jets of fire were covering the crater floor with lava.

From now on, continuing possibly for days or even months, these streams of lava will continue their displays. The floor of the pit is already obscured, whirlpools are forming in the lava pool and a fifth fountain is forming, according to volcanologists stationed here.

Meanwhile back in the jungles on the slopes of the volcano Mauna Loa, old natives are gathering in huts, reviving ancient rites and wondering if Madame Pele, goddess of fire, will demand a human sacrifice or permit Kilauea to erupt spectacularly but safely during the summer season.

Kilauea, the crater in eruption today, is one of the safety valves of Mauna Loa which is more than 13,000 feet high. Kilauea is 14,000 feet above the plain and high above Kilauea are the craters of Mauna Loa which more than a year ago sent a cataract of lava down the slopes, through forests and over native villages into the ocean.

Kilauea, a great pit in the mountainside, is surrounded by a natural amphitheater and here residents of Hilo and other towns of the island are gathering to watch the spectacle.

Sulphur fume are sweeping across the island through a driving rain but the pilgrimage to Volcano House, the hotel on the brink of the fire pit, has already begun.

There is little chance that this eruption will disappoint. It may even fill the pit to overflowing as others have done and lava may roll down and increase the size of the island.

The disturbance which accompanied the start today extended to Kauai, northern-most island of the group, according to reports. At Elele on Kauai, near the spot where Richard Grace wrecked his airplane Monday in an attempt to fly to the mainland, subterranean rumblings were heard yesterday. Native merchants are reported to have offered sacrifices on the brink of Kekekahi Canyon there, believing that Madame Pele had returned.

Reports are spread everywhere in native circles that an old woman, believed to be Madame Pele, has been wandering in the island jungles occasionally visiting native villages. However, Hawaii in general views the eruption calmly, for Kilauea is usually well behaved, permitting spectators to watch her at close range.

Hilo, Hawaii, July 7.—Fire has suddenly appeared in Halemauau pit of Kilauea, famous "Lake of Fire," on the slopes of the volcano Mauna Loa and the long overdue rise of the glowing lava is expected. Red lava was expected to flow into the great open crater where Mauna Loa erupted more than a year ago and sent a cataract of lava down to the sea. After a few rumblings in Kilauea the main lava flow subsided and the thousands of tourists were disappointed.

First indication of any activity occurred a week ago when earth cracks, some of them 1,500 feet long, appeared near the rim of the crater. R. M. Wilson, volcanologist, in charge during the absence of Dr. Thomas A. Jagger, recently warned observers not to linger over-long in the region because of the danger of sudden avalanches.

COOLIDGE NAVAL PARLEY IS IN A DEADLOCK

FATAL PROBLEM RANGES ON
QUESTION OF NAVAL
LIMITATION

BASIS OF TONNAGE OR TOTAL
NUMBER OF VES-
SELS

By HENRY WOOD
(United Press Staff Correspondent)
Geneva, July 7. — The Coolidge naval armaments conference remained deadlocked today over precisely the same kind of question as that which wrecked the League's preparatory disarmament commission. The question was whether naval limitation should be determined on a basis of total tonnage or total number of vessels.

At the preparatory conference, France insisted on the adoption of a limitation program on a basis of total tonnage. Great Britain insisted equally on the fixing of the precise number of ships in each category. Neither gave in, and the conference ended in failure.

At the present conference the United States delegation's attitude is similar to that of France, while Britain is again talking in number of ships. It is frankly admitted that the present conference may end the same way as the preparatory conference.

Thus far—and the conference is now almost at the end of its third week—the British and American representatives have found virtually no common ground for discussion. Likewise, when the United States delegation sets forth its claims in total tonnage, the British commission tries to translate tonnage into numbers of ships.

Hence, the negotiations to date have traveled in a vicious circle. The Americans insisted that their present efforts to induce the British to reduce their demand for cruisers is not due to a desire to deprive Great Britain of a force which that country considers necessary to protect its trade routes. Rather, the United States delegation feels that unless Britain's demands are reduced and kept within the limits originally suggested by the United States, the conference will result in increased construction.

The conference has reached a stalemate which only could be overcome, it appears today, if Britain would give in.

Japan has explained a willingness to accept 250,000 tons as the maximum cruiser tonnage to be allotted any country and 200,000 tons for destroyers. The British demands range higher than 400,000 cruiser tons.

Unless Britain receded from her position, the fate of the conference probably would be decided tomorrow. Washington, July 7.—The Geneva naval conference will collapse unless Great Britain withdraws her cruiser demands, in the opinion of officials here today.

Secretary of State Kellogg has informed Sir Esme Howard, British ambassador, this government refused to discuss the British proposals entailing doubling of present British modern cruiser strength, and increasing of such American ships sixfold.

Kellogg repeated the American contention that total cruiser tonnage for the two countries should be fixed at 300,000 tons, approximately Britain's present modern ship strength. For the sake of an agreement, this government might raise the maximum figure, he said, but no figure

SHEFFIELD IN 3 DAY CONFERENCE WITH COOLIDGE

REGARDING ADVISABILITY OF
HIS RESIGNATION AS
AMBASSADOR

By PAUL R. MALLON
(United Press Staff Correspondent)
Rapid City, S. D., July 7.—James R. Sheffield, ambassador to Mexico, arrived here today and went to the summer White House for a three day conference with President Coolidge regarding advisability of his resignation and the present state of Mexican affairs.

While Sheffield declined to discuss his anticipated resignation until he could see Mr. Coolidge, he indicated his desire to leave public life and expressed the belief that no change in the present policy of the United States toward Mexico would evolve from his visit with the chief executive.

General belief prevails among those close to the president that Sheffield came here to present his resignation because the climate in Mexico City does not encourage his health and because he personally favors a more stringent policy toward the southern republic.

MOVIE FILM MAKERS RESENT WAGE CUTS

PUT UP A PERMANENT DEFENSE
AGAINST THE MOVE-
MENT

SEEK CONTROLLING INFLUENCE
OF CLOSED SHOP OF ACTORS'
ORGANIZATION

Hollywood, Cal., July 7.—(UP)—Movie film makers including studio employees and stars have put up a permanent defense against a wage reduction now or at any future time. At a meeting of 1,000 of the most prominent in the film colony here last night it was decided that Hollywood film studios will operate henceforth under the closed shop of the Actors' Equity Association.

The present contracts are to be carried out, according to the agreement, and new contracts will be Equity contracts and will include Equity rules and minimum wage provisions.

Those who did not belong to the Equity flocked forward to pay their dues.

The proposed 10 to 25 per cent salary reduction of the producers suspended recently until Aug. 1, was not mentioned during the meeting but the decisions reached were generally accepted as a result of the effort to force lower salaries.

Henceforth, the Southern California executive committee of the Equity will negotiate with producers regarding the proposed wage slash. Frank Gilmore of New York, national executive secretary, presided at the meetings.

STEPS IN PATH OF CAR AND KILLED

Chicago, July 7.—(UP)—Haste to summon a physician to attend her dying mother caused Winifred Buckley, 24, to hurry cross the street in front of her home without looking for approaching traffic and she was struck by an automobile and killed.

A double funeral was to be held today for the girl and Mrs. Ellen Buckley, her mother, who was found dead when the daughter was carried into the house.

Mrs. Buckley collapsed when she received a telegram telling of the death of a sister in Omaha, Neb., and never regained consciousness.

TRAIN PLUNGES INTO TORRENT; 9 ARE KILLED

Wernigerode, Saxony, July 7.—(UP)—The banks of a swollen stream in the Hartz mountains were being searched today for bodies of passengers lost when a train plunged into the torrent.

Nine persons were killed and 10 seriously injured when the engine and one coach left the tracks, weakened by a cloudburst.

The swirling waters carried the bodies downstream, making their recovery difficult.

The cloudburst did great damage in the mountains.

Wernigerode is a town of Prussian Saxony, 43 miles southwest of Magdeburg. The Hartz mountains are in northwestern Germany between the Elbe and Weser rivers.

"BREADBASKET OF THE WORLD" IS PROSPEROUS

REPORTS CURRENT THAT FARM-
ERS WILL HAVE BIG
WHEAT CROP

HARVESTING CARRIED ON FROM
THE DAKOTAS TO
TEXAS

Chicago, July 7.—(UP)—Through the great "Breadbasket of the World"—that agricultural area that extends down from the Dakotas to Texas—reports were current today that farmers will enjoy another season of prosperity through wheat production.

Harvesting is going on through the entire area now and indications from many sources were that the crop would be almost as large as that of 1926, despite unseasonable weather early this spring.

The crops in Kansas, Nebraska, Texas, Missouri and Oklahoma will fall slightly under the 1926 volume, according to reports to the United Press. This is mainly due to early spring floods but this condition will not prevent a year of prosperity.

The Kansas yield now is expected to be about 120,000,000 bushels.

J. F. Jones, secretary of the Minnesota Farm Bureau Federation, told the United Press that wheat prospects in his district were even better than in 1926.

The outlook through the "corn belt" is not so good, however. From Iowa come reports that rain is needed badly in almost every section.

Farmers report their crops are in need of moisture to mature properly.

In the Minnesota district corn is reported to be very backward with prospects of a poor crop.

Through the southwest farmers claim they are in need of rain in order to have good corn crops.

Although there have been numerous reports of corn borer and black rust west of known areas of infection, most of them cannot be confirmed.

SIPHONING LIQUOR FROM BONDED WAREHOUSES CHARGED

Chicago, July 7.—(UP)—Five men who organized a system of siphoning liquor from bonded warehouses chose to change their pleas to guilty today and accept a sentence of 18 months in federal penitentiary rather than face a maximum of 32 years imprisonment for violating the Internal Revenue law.

Those involved were: James "Fur" Sammons, William O'Donnell, Thomas Berry, and William Driscoll. They were indicted on several counts and had they been found guilty of all allegations could have been sentenced to 32 years.

In addition to the prison sentence, Judge George Carpenter fined the gang \$1,500 each.

FOUNTAINS OF LAVA LEAP 300 FEET IN HEIGHT

KILAUEA, ON HILO, HAWAII, IS
AGAIN SPITTING
FIRE

EARTHQUAKE ACCOMPANIED BY
ROAR OF INITIAL
ERUPTION

Hilo, Island of Hawaii, July 7.—(UP)—Fountains of lava leaping 300 feet through rolling clouds of dense steam and sulphurous fumes while subterranean explosions and hissing winds aroused the entire island, today ushered in the long awaited eruption of Kilauea (Lake of Fire), the world's most spectacular volcano.

Beginning at 1 A. M., with a slight earthquake and the appearance of a fiery fountain in the bottom of the great pit, a mile across and a thousand feet deep, the eruption increased until at dawn four jets of fire were covering the crater floor with lava.

From now on, continuing possibly for days or even months, these streams of lava will continue their displays. The floor of the pit is already obscured, whirl-pools are forming in the lava pot and a fifth fountain is forming, according to volcanologists stationed here.

Meanwhile back in the jungle on the slopes of the volcano Mauna Loa, old natives are gathering in huts, reviving ancient rites and wondering if Madame Pele, goddess of fire, will demand a human sacrifice or permit Kilauea to erupt spectacularly but safely during the summer season.

Kilauea, the crater in eruption today, is one of the safety valves of Mauna Loa which is more than 13,000 feet high. Kilauea is 14,000 feet above the plain and high above Kilauea are the craters of Mauna Loa which more than a year ago sent a cataract of lava down the slopes, through forests and over native villages into the ocean.

Kilauea, a great pit in the mountainside, is surrounded by a natural amphitheater and here residents of Hilo and other towns of the island are gathering to watch the spectacle. Sulphur fume are sweeping across the island through a driving rain, but the pilgrimage to Volcano House, the hotel on the brink of the fire pit, has already begun.

There is little chance that this eruption will disappoint. It may even fill the pit to overflowing as others have done and lava may roll down and increase the size of the island.

The disturbance which accompanied the start today extended to Kaula, northern-most island of the group, according to reports. At Eleale on Kaula, near the spot where Richard Grace wrecked his airplane Monday in an attempt to fly to the mainland, subterranean rumblings were heard yesterday. Native merchants are reported to have offered sacrifices on the brink of Kekekolu Canyon there, believing that Madame Pele had returned.

Reports are spread everywhere in native circles that an old woman, believed to be Madame Pele, has been wandering in the island jungles occasionally visiting native villages.

However, Hawaii in general views the eruption calmly, for Kilauea is usually well behaved, permitting spectators to watch her at close range.

Hilo, Hawaii, July 7.—Fire has suddenly appeared in Halemaunau pit of Kilauea, famous "Lake of Fire," on the slopes of the volcano. Mauna Loa and the long overdue rise of the glowing lava is expected.

Red lava was expected to flow into the great open crater when Mauna Loa erupted more than a year ago and sent a cataract of lava down to the sea. After a few rumblings in Kilauea the main lava flow subsided and the thousands of tourists were disappointed.

First indication of any activity occurred a week ago when earth cracks, some of them 1,500 feet long, appeared near the rim of the crater. R. M. Wilson, volcanologist, in charge during the absence of Dr. Thomas A. Jagger, recently warned observers not to linger over-long in the region because of the danger of sudden avalanches.

THE KNOT HOLE

Vol. 2

THURSDAY, JULY 7, 1927

No. 29

If there is anything you think the editor of the Knot Hole ought to know, kindly communicate it. This thing of an editor is a heavy responsibility.

Another thing that's always bothered us, why should an engineer be civil?

R. D. Stitzel, who spent the past year and a half in Florida told us this one: Ephraim Walker Johnson, colored, had by due process of law, been hanged in Florida. His funeral was being preached by a Kentucky pastor who had known Ephraim since childhood.

"Brethren," said the preacher, "you all have come to pay your last respects to the deceased, Brother Johnson.

This brother was bred and born in Kentucky, where he grew to manhood; he, later, gravitated to Tennessee, then to Alabama, then to Georgia, and, last to Florida, where he met, wed and killed his wife. This is the crime he has now paid for. Brethren and sisters, this deceased brother is now in hell, and the only consolation I can offer the sorrowing relatives is—that he went there gradually.

Isn't it a fact? Ants are educated animals that know where picnics are held.

Nothing is quite so disconcerting as to sit down in a shoe store and suddenly realize that you have forgotten the deceased, which sock has a hole in it.

There's a small girl in this town who was giving her undivided attention the other evening to a bag of peanuts. "Mother," she asked, "who wraps these nuts up in brown paper this way?"

"Is that your car?" bellowed the traffic cop.

"Well, officer, since you ask me, considering the fact that I still have fifty payments to make, owe three repair bills and haven't settled for the new tire, I really don't think it is."

War is a great thing, for as the officer said to the young recruits: "Don't forget that the Army is at one big family, and that in one of you there is the making of an unknown soldier."

CHAMBERLIN AND LEVINE HAVE SEPARATED

QUIETLY BUT SURELY HAVE
BROKEN OFF RELATIONS

CHAMBERLIN RESENTS CHALLENGE LEVINE ADDRESSED TO BYRD

By A. L. BRADFORD
(United Press Staff Correspondent)
Paris, July 7.—Clarence D. Chamberlin and Charles A. Levine, who risked their lives together when they flew from New York to Germany, have quietly but surely broken off their relations, it became known today.

The reason dates back to a telegram Levine sent to Commander Richard E. Byrd challenging him to race back from Paris to New York. That is why Chamberlin has refused to pilot the Bellanca plane back to the United States and Levine has announced he will make the trip with a French pilot.

Chamberlin and Levine still live at the same hotel and speak coolly but their cordial relationship has ended. Chamberlin openly criticizes Levine for sending the challenge to Byrd.

"Levine," Chamberlin said, "in sending the message to Byrd suggesting that the America and Columbia fly back to New York together, signed my name to it without permission. In fact, I knew nothing about the message until after it had been sent."

"I apologized to Byrd upon his arrival at Paris, realizing that he, the same as I, could never be pushed into making a race out of a flight which requires the most careful preparations and the most careful navigating and flying."

"When I learned the telegram had been sent I told Levine that I was through; that I had made my last flight in the Columbia."

"My wife and I are going home together. We are flying to London tomorrow in an ordinary passenger plane and probably sail without returning to Paris."

French airmen believe Levine will have difficulty in finding a French aviator to pilot the Columbia back to New York, as the Bellanca plane is not built according to specifications suitable to French aviators.

Costes, who with Rignot, once held the world distance record, said, "The Bellanca plane does not provide the necessary guarantees. Its flying radius is insufficient."

MILLIONAIRE DROWNED IN LAKE MISHAP

Winnipeg, Man., July 7.—(UP)—W. L. Hodgkins, Chicago millionaire and two members of the crew were drowned when a gasoline launch caught fire in Georgian Bay, Ont., late yesterday, according to advices received here today.

Hodgkins, an expert swimmer, became exhausted while aiding others to escape from the burning boat. Thomas Flesman, deck hand, Chicago and James Rush, Little Current, Ont., also were drowned.

Emma Otis and Nancy Smith, both of Chicago and two members of the boat crew were aided to safety by Hodgkins before he sank.

Hodgkins was president of the Brownell Improvement Co., of Chicago. He was making his summer home on the bay.

BUS COMPANY PERMIT RESCINDED

St. Paul, July 7.—(UP)—The order granting a permit for the Blue Goose Transportation Co., of Brookings, S. D., to operate on western Minnesota roads was rescinded today by the state railroad and warehouse commission.

The concern suspended service between Sioux Falls, S. D., and Fargo, N. D., on roads in the western part of this state last May but failed to notify the commission.

BRAINERD 25 YEARS AGO

From the Daily Dispatch

July 5, 1902

Miss Louise McLain who has been teaching school at Pine River and who was the guest of Superintendent and Mrs. J. A. Wilson for a few days, left for her home in Minneapolis this afternoon.

J. Patek, who is now with a surveying crew, returned to Duluth yesterday, after a short visit with his parents.

Louis Thurston, a young lad whose home is at Floodwood, was badly injured yesterday afternoon by falling out of a buggy on Laurel street in this city. He has been working on a farm and yesterday came in to Brainerd to spend the Fourth. In driving out again he was seated on

the rear of the buggy on a beer keg and slipped and fell off backwards, breaking his collar bone. He was brought to this city and Dr. Camp was called. He dressed the wound and the young man having no visible means of support was sent to the county poor farm where he will have good care.

The Trades and Labor Assembly of this city outdid themselves yesterday in their grand Fourth of July celebration at Gilbert Lake, and the event will be long remembered by those who participated in the events of the day at this beautiful summer place. The committee in charge of the celebration had so well planned the whole affair that there was not a hitch at either end of the line. In the city ample provision had been made for the transportation of a large number of people who would go out and it was estimated that by 3 o'clock no less than 2,000 were on the ground.

FORMER COLLEGE FOOTBALL PLAYER HELD BY POLICE

Chicago, July 7.—(UP)—Charles Austin, 37, former University of Pennsylvania football player, and grandson of former Gov. Austin of Minnesota, was held by Chicago police today on charges of stealing an automobile in Los Angeles.

Austin was registered at a prominent hotel here, as he visited the city with his wife and his mother-in-law. His wife, formerly Edith Kelly, is the daughter of a wealthy lumberman in Duluth.

Austin said he was an automobile salesman in Los Angeles, and denied he had stolen the expensive motor car in which he had driven here.

Chicago authorities waited to see whether government officials want to prosecute Austin under the Dyer act. If federal officials do not act, Austin

will be turned over to Los Angeles authorities.

Boston Billy Williams is Reported Taken by New Britain Police

New York, July 7.—(UP)—Boston Billy Williams, wanted in Long Island in connection with a series of robberies of wealthy homes, was shot and wounded in New Britain, Conn., today by officers who captured him there, the Burns Detective Agency here announced.

New Britain, Conn., July 7.—(UP)—New Britain police headquarters had not been advised at 11:30 a. m., today of the capture or shooting of Boston Billy Williams, reported from New York.

No person suffering from a gunshot wound had been admitted at that hour to the New Britain General hospital.

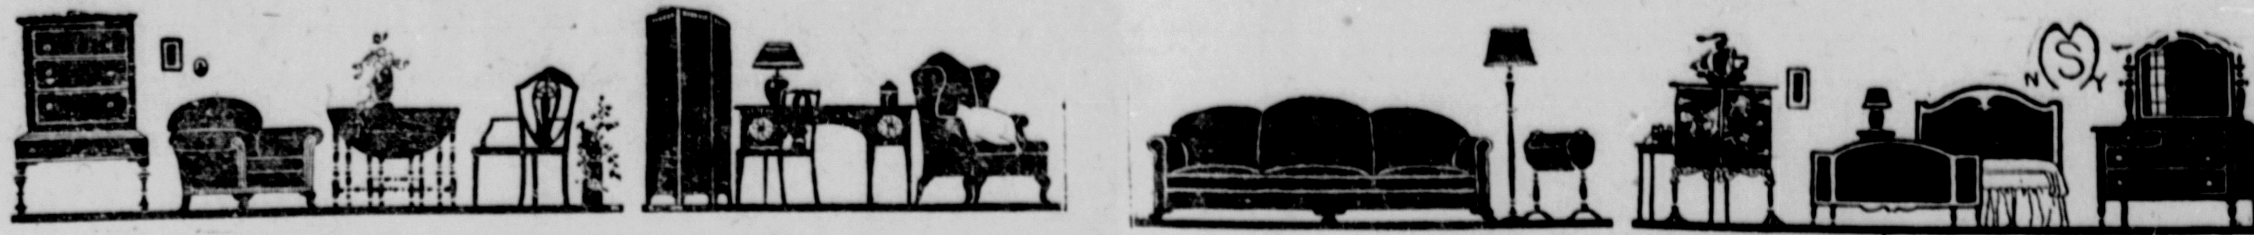

FIRST DEATH PENALTY METED IN GANG WARFARE

Marion, Ill., July 7.—(UP)—The first death penalty in connection with the gang warfare in southern Illinois was handed down today.

Rado Millich, former Birger gangster, was convicted and electrocuted recommended today by a jury for the murder of Ward Jones, another gangster. Eural Gowan, convicted of complicity in connection with the Jones murder, was sentenced to 25 years imprisonment.

The murder of Jones was towards the climax of the feud between the Birger and Shelton gangs. Jones' body, riddled with bullets, was found near Marion.

Charley Birger, leader of the gang of which all three men were members, is now on trial at Benton on a murder charge.

A REASONABLY SANE FOURTH

THIS country celebrated its birthday Monday with reasonable freedom from tragedy, says the Duluth Herald.

Eighty or so are dead, but only about a dozen of these deaths were caused by noise-making devices such as used to make the Fourth of July a ghastly travesty.

The rest were due to drownings, automobile accidents and other casualties such as are likely to happen any holiday or Sunday when the weather is so that many people go out pleasuring. These eighty deaths—not to speak of several hundreds who were hurt—were sacrifices; not to patriotism, but to pleasure.

None of these luckless folks had to die. All of them died because they or somebody else was careless.

If everybody was careful, there would be few or no sacrifices on the Fourth of July or any other day.

But then if everybody were perfect, there would be no trouble of any kind in the world.

People are learning. Slowly, to be sure, sometimes painfully so; but they are learning. We don't kill so many on the Fourth of July as we used to, though that is partly because we have generally prohibited by law the devices that were most dangerous. We don't seem to gain much on automobile and boating tragedies, but perhaps if we compared the number of accidents with the increasing number of people who go out pleasuring we would find some little gain.

But even if carefulness in the mass grows with painful slowness, there is nothing whatever to prevent any individual from being careful and thus saving himself and those with him from the penalty of recklessness.

WHY JAPAN IS GREAT

BUSINESS honor and integrity are no empty words or meaningless phrases in that section of the East embracing China and Japan. The native merchants, those who are characteristic of the better classes, regard their word as highly as their bond.

The Chinese New Year, for instance, is made a festival and is also the season for cleaning up one's slate of all indebtedness.

As remarked by the Milwaukee Journal, presidents of the banks which failed during the recent financial crisis in Japan have decided to sell all their personal property, even their homes, in an effort to bring the institutions back to solvency. Several of Japan's leading merchant princes will be impoverished by this action, but the banks no doubt will be saved.

Where else in the world could one look for such action as these Japanese bankers have voluntarily taken? Yet their ready relinquishment of personal fortunes in the interest of the general welfare is typically Japanese. It is this characteristic which has made the little handful of islands, smaller than Texas, crowded with sixteen times that state's population, one of the great powers.

Japan has traveled far in the short time since Perry landed on its shores. It has made the journey despite an essentially unfavorable natural environment. It has earned its success through the concept its subjects from the lowest to highest have of duty to the nation. The action of the bankers in stripping themselves of everything of value in the general cause is an example of that concept.

WE LIKE BABCOCK

WE believe in the sentiments expressed by the Laverne Herald which states that Governor Christianson's reappointment of Highway Commissioner C. M. Babcock should, and will, bring joy to the heart of every Minnesotan who cares for the welfare of the state's highway system.

He is a good man in the right place. But we put Babcock in a paradox of a situation. We praise his ability, the good work he has accomplished, but "shut down" on him when he wants a bond issue to give him funds enough to pave the state now and do away with a mounting upkeep cost.

Car ownership is becoming so extended, roads are becoming inadequate to carry increasing traffic comfortably, holidays finds the highways filled to congestion, and the wear and tear is something terrific to think about.

There is no use talking, our car business is running ahead of our road system unless the legislature takes more interest in the recommendations made by this man Babcock who knows what he is talking about.

WOMEN DRESS SENSIBLY

IN these days of light dressing, when a woman's whole summer equipment only weighs 12 ounces, every man envies the feminine world.

True, the male discards his coat and hat, but in spite of all he can do and all his criticism, woman, no matter what she wears, is always better dressed and more sensibly attired.

Health records indicate women are healthier than men, can endure more without whimpering and taking it all in all are generally becoming the dominant sex in more ways than one.

Many a man roars about his independence when a lot of fellows are around, but his voice depresses to quite a soft tremolo when the Missus is within hearing distance.

YOU hear persons remark that the tourist traffic this year is not as heavy as it was in 1926, yet every resort in the northern part of the state is filled. Traffic began early, two weeks earlier this year than last, and has been steady since that time. It is probably for this reason that many think fewer tourists are going through than in former years. The stream is a continuous one. For confirmation drive to Brainerd and back most any afternoon or evening.—Little Falls Daily Transcript.

It's funny in a way, but the world, that is the superficial part of it, thinks more of a man who spends his money, advisedly or ill-advisedly, than it does of the thrifty person. It's the same way in lodges and other organizations. The man making the motions to spend something gets more attention than the cautious individual who is trying to put on the brakes and save a fund or pay current debts.

A MAN with a long memory and observing eye, a paragrapher on the Wheeling Intelligencer, says he can remember the time when girls got vaccinated on the leg so it wouldn't show.

KEEPING that school girl complexion is no easy job for the school girl, or for any imitator.

HOPING FOR A MILLION DOLLAR FIGHT

**BOTH BOXERS
APPEAR TO BE
TEMPERAMENTAL**

**SHARKEY THREE DAYS LATE TO
SEE TEX RICKARD,
PROMOTER**

**DEMPSEY WIRES THAT HE WILL
FIGHT ON SCHEDULE,
JULY 21**

By HENRY L. FARRELL
(United Press Staff Correspondent)

New York, July 7.—Three days late and taking his time about it, Jack Sharkey, the cocky Boston heavyweight, was expected here late today to finish training for what Tex Rickard hopes will be a million dollar fight against Jack Dempsey in the Yankee stadium on July 21.

Sharkey had promised to be here Monday and when he failed to show up Rickard became slightly concerned. He was also concerned and more than annoyed by reports from White Sulphur Springs that Dempsey had found himself a hollow shell and would not fight unless he could get a postponement.

Dempsey cleared the situation, as far as the public was concerned, with a wire that he was going to fight on schedule.

Rickard called the Boston sailor on the phone and asked him to come to New York at once and Sharkey, like a faithful and obedient employee answered—"No."

Rickard tried to point out that he couldn't get much publicity training in a little Boston gymnasium and Sharkey told him rather shortly—"I'm not training for publicity. I can work here just as good as in New York. I expect I'll be down about Thursday night."

Sharkey doesn't take kindly to orders even from a promoter who has put him in the way of making \$250,000 and has given him the chance to work into the million dollar heavyweight championship.

"Rickard tries to treat me like a baby," Sharkey told the writer before he went to Maine on his fishing trip. "He told me to stay in and not to ride in taxi cabs. I'm big enough to take care of myself."

Sharkey's choice of a little gymnasium in Boston instead of the new gym on the top of Rickard's Garden for his training has caused surprise among some of the experts who think fighters ought to train outside for an outdoor fight.

"I can get ready indoors just as well," Sharkey said recently. "What difference does it make if you're not all tanned up? If you're not tanned up maybe you're not burned out."

It may be, however, that Sharkey has a little superstition because he added—"I trained outdoors once for a fight with Rojas and I got knocked out."

Rickard said today that the advance sale had passed \$300,000 and he was quite certain the gate would be more than a million dollars.

Boston, July 7.—Jack Sharkey, heavyweight contender, and Mrs. Sharkey were to leave shortly before noon today by automobile for New York, where the fighter will go into training for his coming bout with Jack Dempsey.

**JACK DEMPSEY
TO PLAY ROUND
OF GOLF TODAY**

Saratoga Springs, N. Y., July 7.—(UP)—Jack Dempsey was expected to go to the links this afternoon for a round of golf instead of his usual afternoon training sport of making life miserable for his sparring partners. Leo P. Flynn, his manager, decided after yesterday's workout that the former champion was in such good condition that there was danger of overtraining if he sparred every day.

With his bout with Jack Sharkey only two weeks away, Dempsey opened up on his camp followers in nine rounds of hard-hitting boxing yesterday. He knocked out Jack Hildebrand, Syracuse heavyweight, and had Pietro Corri helpless on one knee after a brief exchange of blows. Martin Burke was badly pounded in the midriff. Allentown Joe Gans, however, traded blow for blow with Dempsey and held his own in a short workout.

BASEBALL'S BIG FIVE

Ty Cobb was the only member of the quintet to see action. The Georgia Peach came through with a double and three singles in ten times at bat as the Athletics took two from the Red Sox.

Northeast took a thrilling baseball battle last evening at the N. P. grounds from the Y. M. C. A. by the score of 3 to 2.

With the exception of the first inning when he allowed four hits and two runs, Jarboe, N. E. heaver, was in fine form, allowing only three men to reach first base after the initial stanza. Stevens of the Y. M. C. A. had the N. E. hitters in hand until the sixth inning when they collected their first hit of the game. A poor seventh inning on the part of the "Y" boys spelled defeat.

As a result of last night's win, the N. E. team is tied with the South Side for first place.

Jarboe was credited with eleven strikeouts.

The I. O. O. F. will meet the South Side tonight at 8:15 o'clock.

'SLEEPING BEAUTY' PASSES TO 96TH DAY OF UNCONSCIOUSNESS

Los Angeles, July 7.—(UP)—While legal and medical difficulties rent the air today, Mrs. Clara Drummond, "sleeping beauty," passed into the 96th day of unconsciousness.

The controversies arose between Dr. George Parrish, city health officer and the woman's husband, Walter T. Drummond.

Dr. Parrish sought to move Mrs. Drummond from a private hospital and swore out complaints against the chiropractor treatment the woman and the hospital proprietor.

Meanwhile Drummond obtained a court order restraining Dr. Parrish from moving Mrs. Drummond or interfering with her treatment.

Dr. Parrish alleged the hospital in which Mrs. Drummond is being treated was operating without a license.

Mrs. Drummond was poisoned April 4 by carbon monoxide gas. Since then she has been in a coma. She apparently has no mental faculties, according to physicians.

SID TERRIS HAS BOIL ON FOOT OPERATED ON

New York, July 7.—(UP)—Sid Terris, leading contender for the lightweight championship, was reported in favorable condition today after an operation on a boil on his right foot.

Dr. George Schwartz, who performed the operation, said the boxer would be able to leave the hospital in a few days.

DUTCH ULRICH, PHILLIES' PITCHER, IN HERO ROLE

**CHECKS BRAVES AND HOLDS

**ST. LOUIS LOSES A GAME WITH
TIGERS WHEN NEVERS
WEAKENS**

(By United Press)

Yesterday's hero — Dutch Ulrich, Phillies pitcher, relieved Tony Kaufman after only one-third of an inning had been played in the first game of yesterday's double-header with the Braves and confined the latter to three hits for the rest of the game. The Braves scored four runs in the first but the Phils came back with five in the third and won 6 to 4. In the second game, Scott held the Braves to three runs, enabling the Phils to win, 5 to 3. Fournier, Braves' first baseman, hit a home run in each game.

St. Louis lost a game with the Tigers in the eighth when Ernie Nevers weakened, forcing in a run that tied the score. Another run was scored later in the same inning and the final score was 9 to 8.

The Athletics took two games from the Red Sox, 5 to 1 and 7 to 6. Ty Cobb played brilliantly for Philadelphia in the first game, getting three hits in five times at bat, one a double and engineering one of the triple steals for which he is famous. Dykes, Athletics' first baseman, starred in the second game—for both his own team and the Sox. He was charged with two errors but made up for it by hitting two doubles and a single and scoring two runs in five times at bat.

No other games were played.

Kansas City, Mo.—Zinn scattered seven Toledo hits while the Blues were picking on three Mudhen pitchers for eighteen base blows, and Kansas City won, 10 to 3, reducing the margin between the locals and the league-leading Toledoans. Moore hit a homer for the Blues.

Minneapolis — Home runs aided Minneapolis in scoring a double victory over Louisville and settled the Colonels more firmly in their cellar berth in the league. The Millers scored two homers in the first game, winning 2 to 2 and another in the second to win, 6 to 5.

St. Paul—Ability of Saint batters to score hits with men on base gave St. Paul a double victory over Indianapolis. The Saints won the first game 9 to 6, despite three home runs by Indian players, and took the second, 10 to 5, by massing hits in the fifth, sixth and seventh frames.

Milwaukee — Twenty-one hits counted for fifteen runs and Milwaukee defeated Columbus, 15 to 5, behind the effective pitching of Jonnard. Brief, Brewer outfielder, gathered one double and three singles in four times at bat. Ferrell and Sullivan hit homers for Columbus.

BODY UNCLAIMED PROVES TO BE THAT OF MAN NOT RELATIVE

Milwaukee, Wis., July 7.—(UP)—A body shipped from California to Milwaukee for burial is unclaimed because the persons to whom it was addressed assert it is not the remains of their nephew as supposed and the coroner declares he can do nothing to help the situation because death did not occur here.

The body was shipped prepaid to Julius Ciskowski and his wife as the remains of their nephew, Junior Parrish. Records show, however, the name of the deceased was Jack Anderson. Ciskowski would not accept the shipment.

FUNERAL RITES FOR PIONEER RESIDENT, URGELE RONDEAU

St. Paul, Minn., July 7.—(UP)—Funeral arrangements were being made today at New Canada, near here, for Urgele Rondeau, 81, pioneer Minnesotan.

Rondeau died at his home in New Canada late Wednesday. His parents were among the first settlers in St. Paul, having journeyed by ox-cart from northern Manitoba with other French colonists.

He was town clerk at New Canada for 35 years. Two sons and a daughter living in St. Paul survive.

Germany Placed on Olympic Committee

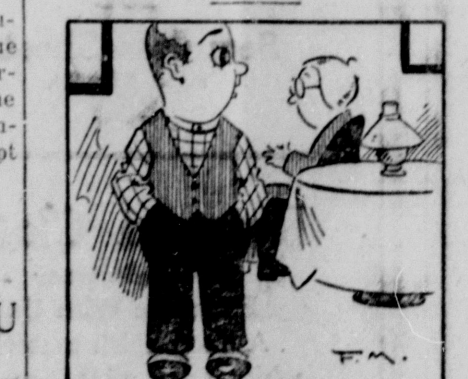

Germany has again secured representation on the executive committee of the Olympic committee by the election of Dr. Otto Lewald, president of the German Olympic committee, at a session of the International body. Doctor Lewald, Gen. Charles H. Sherrill of the United States, Count Henry Ballet Latour of Belgium, Count Polignac of France, Colonel Kentish of Great Britain and Baron Godefroy De Blonay of Switzerland were named for four years.

Goldie Johnson Earned High Place in Saddle

Another candidate for the honor of being America's foremost jockey is Goldie Johnson, who rides for E. H. Bradley's stable. He is a product of the West, having started his career on the Tia Juana track. Johnson was riding for a small salary when one of Bradley's trainers looked him over and was so impressed with the way he handled horses he recommended the youngster to Bradley.

Johnson is now one of the highest salaried jockeys in this country and likewise one of the most successful. He rode 69 winners at New Orleans last winter.

'SPIDER' HAINES STILL STICKING TO LOFTY PERCH

Denver, Colo., July 7.—(UP)—Leroy "Spider" Haines, world's champion heavyweight long distance non-stop pole sitter, is giving other aspirants to the title something to shoot at.

At midnight last night "Spider" was half way on his fourteenth day atop a flag pole here but he showed signs of weakening and may at any time decide to come down to earth again.

"I aim to make it tough for the baby that breaks my record," says "Spider." And he remains aloft against great odds.

There is a rumor here that the flag pole on which Haines has made his record may be placed in a museum.

Chicago, July 7.—(UP)—From his perch a good city block above the street today, Joe Powers, nicknamed "High" appropriately, felt his sun-burned neck and looked at his swollen feet, gazed down the flag pole which is his sole companion and decided "tentatively" to extend his stay aloft.

When Powers started his marathon "sit" a week ago yesterday afternoon, he announced he would stay up two weeks, and thus beat "Shipwreck" Kelly's record of 12 days. But since then, "Spider" Haines of Denver has passed the fortnight mark and is still sitting.

Powers has not enjoyed the last few days on the flagpole, he admits.

QUARTER MILLION DOLLAR ALIENATION SUIT IS FILED

Los Angeles, July 7.—(UP)—The happy wedded life of Mrs. Martha Callahan was blasted because Lillian Curtis Gillette, Minneapolis hotel owner, lavished wealth and luxuries on her husband, John P. Callahan, it was charged in a \$250,000 alienation suit filed by Mrs. Callahan.

The complaint, filed yesterday, alleged that Callahan accepted money from the defendant to go to New York and effect a permanent separation from his wife with whom he had lived happily since his marriage seven years ago in Kansas City.

The complaint recited that Callahan had spent much of his time and even some of his nights at the Gillette home since November, 1926. There Callahan was surrounded with "expensive automobile and servants," the complaint charged.

FUNERAL RITES FOR PIONEER RESIDENT, URGELE RONDEAU

St. Paul, Minn., July 7.—(UP)—Funeral arrangements were being made today at New Canada, near here, for Urgele Rondeau, 81, pioneer Minnesotan.

Rondeau died at his home in New Canada late Wednesday. His parents were among the first settlers in St. Paul, having journeyed by ox-cart from northern Manitoba with other French colonists.

He was town clerk at New Canada for 35 years. Two sons and a daughter living in St. Paul survive.

Fixed Election Day

New York was the first of the states to fix election day as "the Tuesday after the first Monday in November."

Germany Placed on Olympic Committee

Germany has again secured representation on the executive committee of the Olympic committee by the election of Dr. Otto Lewald, president of the German Olympic committee, at a session of the International body. Doctor Lewald, Gen. Charles H. Sherrill of the United States, Count Henry Ballet of Belgium, Count Potignac of France, Colonel Kentish of Great Britain and Baron Godefroy De Blonay of Switzerland were named for four years.

Goldie Johnson Earned High Place in Saddle

Another candidate for the honor of being America's foremost jockey is Goldie Johnson, who rides for E. R. Bradley's stable. He is a product of the West, having started his career on the Tia Juana track. Johnson was riding for a small salary when one of Bradley's trainers looked him over and was so impressed with the way he handled horses he recommended the youngster to Bradley.

Johnson is now one of the highest salaried jockeys in this country and likewise one of the most successful. He rode 69 winners at New Orleans last winter.

'SPIDER' HAINES STILL STICKING TO LOFTY PERCH

Denver, Colo., July 7.—(UP)—Leroy "Spider" Haines, world's champion heavyweight long distance non-stop pole sitter, is giving other aspirants to the title something to shoot at.

At midnight last night "Spider" was half way on his fourteenth day atop a flag pole here but he showed signs of weakening and may at any time decide to come down to earth again.

"I aim to make it tough for the baby that breaks my record," says "Spider." And he remains aloft against great odds.

There is a rumor here that the flag pole on which Haines has made his record may be placed in a museum.

Chicago, July 7.—(UP)—From his perch a good city block above the street today, Joe Powers, nicknamed "High" appropriately, felt his sun-burned neck and looked at his swollen feet, gazed down the flag pole which is his sole companion and decided "tentatively" to extend his stay aloft.

When Powers started his marathon "sit" a week ago yesterday afternoon, he announced he would stay up two weeks, and thus beat "Shipwreck" Kelly's record of 12 days. But since then, "Spider" Haines of Denver has passed the fortnight mark and is still sitting.

Powers has not enjoyed the last few days on the flagpole, he admits.

but he dislikes to think his effort has been for nothing and is determined at present to "out-sit" the "Spider." QUARTER MILLION DOLLAR ALIENATION SUIT IS FILED

Los Angeles, July 7.—(UP)—The happy wedded life of Mrs. Martha Callahan was blasted because Lillian Curtis Gillette, Minneapolis hotel owner, lavished wealth and luxuries on her husband, John P. Callahan, it was charged in a \$250,000 alienation suit filed by Mrs. Callahan.

The complaint, filed yesterday, alleged that Callahan accepted money from the defendant to go to New York and effect a permanent separation from his wife with whom he had lived happily since his marriage seven years ago in Kansas City.

The complaint recited that Callahan had spent much of his time and even some of his nights at the Gillette home since November, 1926. There Callahan was surrounded with "expensive automobile and servants," the complaint charged.

TRAIL BLAZER WANTS AIRPLANE RIDE

Oklahoma City, Okla., July 7.—(UP)—Still a true trail blazer at 101 years of age, L. C. Black, veteran pioneer of Fairview, Okla., who freighted supplies over the old Chisholm trail from Wichita to Fort Sill, wants to ride in an airplane.

Visiting relatives here, Black expressed his desire to take an air cruise and handed out the following rules for long life:

"Be Irish, best race on earth.
"Work outdoors.
"All right to drink but not to excess.

"Chew tobacco. I have since six years old."

Black is a West Virginian, born in 1826. He farmed actively until 95 years old.

ASSISTANT PASTOR CHARGED WITH 'MASHING' GIRL

Chicago, July 7.—(UP)—Walter G. Latham, Jr., said to be assistant pastor of Westminster Presbyterian church, Minneapolis, was sought by police today on a capias following his failure to appear in court on a "mashing" charge.

Miss Gail Dutcher, 20, was the complainant. She alleged Latham attempted to flirt with her in a moving picture theater.

BYRD HAS A DESIRE FOR EXPLORATION

HAS EYE ON FOUR OF MOST REMOTE REGIONS OF THE EARTH

SOUTH POLE, THE INTERIOR OF BRAZIL, ARABIA AND MOUNT EVEREST

By JOHN O'BRIEN
(United Press Staff Correspondent)

Paris, July 7.—Commander Richard E. Byrd today expressed a desire to explore four of the most remote regions of the earth.

Only the speed of an airplane could enable man to visit the spots indicated by Byrd and scientifically to explore them within the space of the next seven or eight years, which Byrd has dedicated to his task.

In the order of their proposed visitation, Byrd said he would seek permission from the navy department to go to the South Pole, the interior of Brazil, to Arabia and finally to Mount Everest, sentinel of the Himalayas, from whose top no man has returned alive.

If successful in his proposed flight to the South Pole area, Byrd said he would undertake a good will flight around South America.

"If the navy will allow me," the commander said, "I hope to spend the next seven or eight years in aerial exploration, undertaking the exploration of the interior of Brazil as soon as possible after the South Pole flight and then exploring Arabia and if possible flying over Mount Everest."

Upon completion of such a program, Byrd, who flew to the North Pole, would have achieved a position among explorers equal to that of Magellan, Drake, Columbus and surpassing that of any modern man.

For drama and excitement, a flight over Mount Everest on the borders of Nepal and Tibet probably would surpass even a flight to the South Pole. Expeditions to Everest go beyond civilization and none yet has conquered the summit of the wind whipped peak where perpetual snow lies at an altitude of 29,000 feet.

Everest is the highest mountain in the world. Only once has man been known to have tried for the summit with fair prospect of success. That was when two members of a British expedition several years ago set out from their camp on the upper slopes.

With binoculars those remaining at camp saw their companions struggle upward, every exertion of the steep climb made painful by the difficulty of obtaining sufficient oxygen from the mountain air. Far up the incline the two figures became specks against the background. Although the skies were clear, wind swirled snow up from the mountain drift. The men struggled onward and still were going when darkness fell. They never returned.

President Buison of the chamber of deputies received Byrd and his companions today during a short ceremony during which speeches were exchanged. Replying to the welcome, Byrd stressed Franco-American friendship.

Maurice Bokanowski, minister of trade and post offices, entertained Byrd and his crew and Clarence D. Chamberlin and Charles A. Levine at luncheon.

TO EXECUTE THREE REMAINING SLAYERS OF WARDEN KLEIN

Springfield, Ill., July 7.—(UP)—Execution of the three remaining slayers of Warden Peter M. Klein of Joliet penitentiary was ordered today for July 15 by a mandate of the state supreme court.

The execution was formally ordered following elapse of time for requesting a rehearing on their appeal.

The three to die are Roberto Torres, Charles Duchowski and Walter Stalesky. Two others were shot and killed during a series of breaks from Joliet jail where they were held following their conviction. Two others, Bernardo Roa and Charles Shader escaped.

It is believed the trio will be hung because they were sentenced several weeks ago. A statute making electrocution the legal method of execution in Illinois became effective today.

D. C. STEPHENSON IS AN ENIGMA TO HIS FRIENDS

FOR THIRD TIME HE REFUSES TO "SPEAK OUT FULLY"

OR MANNER IN WHICH HE HAS SAID HE RAN STATE ALONE

Indianapolis, Ind., July 7.—D. C. Stephenson has become an enigma to those who want him to assist in fighting alleged political corruption in Indiana.

For the third time, the former "iron man" of Indiana politics has evaded an opportunity to "speak out fully" about his vanished influence in high places and the manner in which he has said he ran the state alone, according to William H. Remy, Marion county prosecutor.

Remy has been disappointed twice. The second time, he said today, was in visiting the ex-dragon of the Indiana Klan at the state prison in Michigan City. Stephenson, serving a life term for murder, had invited Remy to the prison, promising to "tell all."

Remy indicated that the information he obtained from Stephenson was of uncertain value.

"I positively do not know," he said upon his return, "whether the interview with D. C. Stephenson at Michigan City was successful or not."

"Stephenson certainly was a power in Indiana if all he said is true." More light was thrown on the interview by Robert H. Moore, of Michigan City, Stephenson's attorney, who issued a statement saying that his client had given Remy only such information as would have direct bearing on the prosecution of Mayor John L. Duvall of Indianapolis who is awaiting trial on charges of political corruption. Other evidence, Moore said, was withheld by Stephenson, awaiting a more opportune time for disclosure.

Special Prosecutor Emsley W. Johnson also said that Stephenson talked only about Indianapolis city affairs.

This was a disappointment to Remy who had gone to Michigan City expecting to hear from Stephenson about his dealings with officials in the state government.

It was the second time Stephenson had failed Remy. The first was during the Marion county grand jury investigation. At that time, Stephenson appeared before the grand jury, and was expected to give

startling testimony, but he refused to answer questions.

Stephenson a week ago was permitted to be interviewed at the prison by newspapermen, and although he was assured of statewide publicity for what he said, he told nothing. In all, he has had a chance to tell his story three times.

The Indianapolis situation, however, is declared to be a part of the investigation into "Stephensonism." Besides Mayor Duvall, City Comptroller W. C. Buser, Purchasing Agent John J. Collins and Earl Garrett, former market master, are awaiting trial. Duvall and Buser are charged with violating the corrupt practices act, and Collins and

Garrett are accused of soliciting or accepting bribes.

Mayor Duvall, who has not denied statements that he was elected with the support of the Klan, is planning to issue the Indianapolis Post, his new daily newspaper, next week.

EDDIE STINSON TO TRY FLIGHT AROUND WORLD

Louisville, Ky., July 7.—(UP)—Eddie Stinson, pioneer pilot and leading contender for the Ford reliability trophy, will attempt a flight around

Plans for the flight were announced today by E. F. Schlee, president of the Wayco Air Service, Inc., Detroit, sponsor of the globe girdling attempt. Stinson's part in the Ford reliability tour was decided as a test flight for the monoplane in which he and William Mara, tour companion, hope to fly around the world in record time.

HOPE TO SOLVE MURDER MYSTERY

St. Paul, July 7.—(UP)—Four persons were being questioned by police today in an effort to clear up the mysterious killing of two women, whose bodies were found riddled with bullets early Wednesday.

Mrs. Sadie Bell Dubois and Miss Anne Grenville were found dead in the latter's home by Charles M. Hutchinson and a taxicab driver.

Investigation by the coroner and circumstances surrounding the killings, police said, revealed that the crimes had been committed at least 12 hours before they were discovered.

Choose Your Friends If You Wish Success

"How far you go depends upon whom you travel with" is an old Indian saying. The J. C. Penney Company has traveled in a quarter of a century from a tiny country store to a Nation-Wide Institution of 885 stores, serving millions of people, and their success has been due in great measure to the principles with which they chose to make the journey.

Performance - Instead of - Promises was one of their early traveling companions, and Truth-In-Advertising and A-Square-Deal-To-All-Alike have proved equally satisfactory friends.

These 885 stores are more than just places to sell yards of goods. They are monuments to the principle that the public appreciates honest dealing.

PAY FINES HERE

Intoxicated Driver Fined \$100 While Two Occupants Pay \$25 Each on Drunk Charges

IN MUNICIPAL COURT

Car of A. M. Lind, Brainerd, Damaged When Struck by Tourist Car Last Night

Three farmers of Tripoli, Iowa, faced charges in municipal court this morning before Judge J. H. Warner as a result of an automobile accident on the corner of 6th and Oak streets last evening when the car of A. M. Lind, Brainerd resident was damaged by the impact of the car occupied by the Iowa party.

Marvin Lamb, driver, pleaded guilty to the charge of driving while intoxicated. He was fined \$100 and costs. Two occupants George Johnson, and August Schumacher, pleaded guilty to the charge of intoxication and were fined \$25 and costs each. The fines have been paid.

The party were on their way to Cross Lake on a fishing trip.

Wilcox-Hayes

One of the season's most prominent and pretty home weddings took place Tuesday evening, July 5, at 8 o'clock when Miss Loneta May Hayes, daughter of Mrs. A. J. Hayes, of 523 Holly street became the bride of George Leslie Wilcox, son of Mr. and Mrs. I. E. Wilcox of Wisconsin Rapids, Wis.

The rooms were beautifully transformed with peonies, daisies and ferns. Vows were spoken before an altar of peonies and ferns, Rev. Arthur C. Smith of Owatonna, formerly pastor of the First Baptist church of Brainerd, using the ring ceremony. The bride and groom knelt on white satin pillows while receiving the blessing.

Before the ceremony Miss Georgia Drexler sang "The Birthday" accompanied by Mrs. W. A. M. Johnstone. The bridal party entered to the strains of Mendelssohn's wedding march played by Mrs. Johnstone and during the ceremony Miss Geraldine Kiebler played "I Love You Truly" on the violin.

Wentworth Hayes, brother of the bride, as best man, lead the bridal procession from the stairway to the living room where the ceremony was performed in the presence of 70 guests.

Miss Lois Wilcox, a sister of the groom was the bridesmaid and wore a gown fashioned of pink and old rose georgette and carried a bouquet of roses and baby breath.

Miss Hayes was attired in a simple sleeveless gown of white georgette over satin crepe with messaline lace and carried a bouquet of white bridal roses and baby breath.

The groom and best man wore tuxedos. Mrs. I. E. Wilcox mother of the groom wore pink crepe and a corsage of sweet peas. Mrs. Hayes wore blue georgette trimmed with gold lace and wore a corsage of sweet peas.

After the ceremony a lunch was served, the newlyweds leaving immediately on a honeymoon to Duluth and a boat trip on the Great Lakes, and will be at home after August 1 at Wisconsin Rapids, Wis.

PLAN HIGHWAY IMPROVEMENTS

Trunk Highway No. 2 Between Crosby and Ironton Will be Paved

BIDS OPENED JULY 26

T. H. No. 2 Southwest of Ironton Will be Graded for 5.1 Miles

Trunk Highway No. 2 between Crosby and Ironton, a distance of two miles, will be paved, and Trunk Highway No. 2 from Ironton, southwest will be graded for a distance of 5.1 miles, according to an announcement made recently by Highway Commissioner C. M. Babcock.

Trunk Highway No. 6, near north Rock county line, 1.2 miles, 17,000 cubic yards of excavation; T. H. No. 10, between Long Lake and Delano, 10.1 miles, 287,000 cubic yards excavation, will also come under grading jobs for improvement of highways in the state this year.

Bids on the paving of 22 miles of grading, 28 miles of graveling, six bridges and two miles of paving, including the work in this district will be opened by the State Highway department on July 26.

In the paving work at Crosby and Ironton, 21,000 square yards of paving and 11,000 cubic yards of excavation are specified in the plans. The grading of Trunk Highway No. 2 from Ironton, southwest for 5.1 miles will take 168,000 cubic yards of excavation.

The \$5,000,000 paving job by the State Highway department was completed yesterday to link Minneapolis and St. Paul with Duluth with entire paving. The paving will not be ready for use before three weeks yet, Commissioner Babcock announced.

TO GIVE BANQUET AT BREEZY POINT

Brainerd Lions Will Entertain Little Falls Club Next Wednesday Night

PLAN LARGE PROGRAM

R. E. Wyatt, W. P. Tyrholm Named Committee to Make the Arrangements

The Brainerd Lions Club will be hosts at a banquet and entertainment at Breezy Point Lodge next Wednesday evening to 32 members of the Lions Club of Little Falls. Discussion as to ways and means of entertaining the down river club took place at last night's meeting of the local club.

R. E. Wyatt and W. P. Tyrholm have been named a committee to make arrangements. The Lions propose to make Wednesday night a red letter night in the history of their club. Brainerd was entertained at Little Falls last winter and it is their intention to repay the courtesy of their neighborly club by entertaining them in royal fashion. It is expected that over 100 will be in attendance at the banquet and program.

Mr. Viner, Little Falls club member, told of his interesting trip in an airplane from Little Falls to Washington to welcome Col. Lindbergh. He said that Lindbergh assured him that he would visit Little Falls and this district at the earliest possible date.

Rev. J. R. Michaelson rendered a few solos while the Lions quartet gave several selections which were well received.

Babe Ruth Shines as Screen Lover
Baseball, liberally mixed with comedy and romance, makes "Babe Comes Home," which the Lyceum theatre is now offering, the ranking sport picture of the season.

At the head of the cast is George Herman ("Babe") Ruth, the mighty home run king, who is responsible not only for the thrilling baseball with which the picture is spiced, but also some excellent comedy character acting.

Opposite the sensational slugger is Anna Q. Nilsson, at her very best. The love affair worked out between the blonde Swedish star and Ruth is novel, comical, and at times touching; nothing of its kind has been seen before in all the screen's vast variety of romance combinations.

SOMEBODY THREATENS REV. BILLY SUNDAY, DEMANDS \$500

Winona Lake, Ind., July 7.—(UP)—The Rev. Billy Sunday, the noted evangelist, told today of receipt of a threatening letter demanding \$500.

The letter, Rev. Sunday explained, was the reason for the posting of "a large number of policemen" around the evangelist's own auditorium here Wednesday night when he delivered a lecture on "Hold Fast That Which is Good."

Rev. Sunday had just returned from Bangor, Maine, when he received the letter. He said that it was obvious he would not comply with it.

FINED \$25 AND COSTS

George Rardin Found Guilty of Failure to Dispose of Slash as Instructed

For the failure to comply with the instructions of E. H. Rhodes, district forest ranger, in the disposal of slash at cuttings, George Rardin was fined \$25 and costs in municipal court before Judge J. H. Warner yesterday afternoon.

Attorney Mal Clark appeared for George Rardin while Assistant County Attorney A. J. Sullivan represented the state.

FUNERAL RITES OF MRS. G. P. FARRELL

Conducted Saturday at Riverside Cemetery; Died at Anoka June 29

BORN IN BRAINERD

Was Miss Luella Vanderwerker Before Marriage; Lived Here Most of Life

The funeral of Mrs. George P. Farrell, nee Miss Luella Vanderwerker, formerly of Brainerd, aged 27 years, who died at Anoka, June 29, following a short illness was conducted Saturday by Rev. R. E. Cody, interment being made in the Riverside cemetery, nine miles south of Brainerd.

Mrs. Farrell was born in Brainerd, living here the greatest part of her life. The remains were shipped to Brainerd for burial. Surviving besides her husband and one son, George Patrick, five years old, are her parents, Mr. and Mrs. J. S. Vanderwerker, Daggett Brook township; two sisters, Mrs. LeRoy Sewell, St. Mathias township, Mildred Vanderwerker, Daggett Brook township, and one brother, George, of St. Paul.

CARD OF THANKS

We wish to thank friends and relatives for floral offerings received and kindness and sympathy shown during our recent bereavement, the death of Mrs. George P. Farrell. 2911-3111p Husband and family.

PLAN 3 CONTINENT MAIL SERVICE

Washington, July 7.—(UP)—A three continent mail service linking Uruguay and Brazil with Africa and Europe is being organized in South America, according to commerce department reports here. The Latecorre company proposes to make one trip weekly, and its contract has been approved by the post office advisory council at Montevideo. It is assumed here other governmental ratification will be needed before the service becomes effective.

NORTHERN HOME FURNISHING CO.

Announces Decision to Go Out of Business in This City

STOCK, FIXTURES TO BE SOLD

W. D. Gordon Auction Co., of Minneapolis in Charge of Sale Starting July 9

The Northern Home Furnishing Co. of 216-218-220 South Sixth street after having made several efforts to close out their stock have now decided to go out of business.

The stock and fixtures have been turned over to the W. D. Gordon Auction Co. of Minneapolis with instructions to close out everything at auction. Sales will start Saturday afternoon, July 9, at 2 o'clock. Evening sales will begin at 7:30 o'clock, and will continue daily until everything is disposed of.

Through the courtesy of the Northern Home Furnishing Co. a Dispatch is being sent to every home in the city this evening. An advertisement will be found on one of the pages, containing a list of articles to be sold at auction and retail.

Babe Ruth Shines as Screen Lover Baseball, liberally mixed with comedy and romance, makes "Babe Comes Home," which the Lyceum theatre is now offering, the ranking sport picture of the season.

At the head of the cast is George Herman ("Babe") Ruth, the mighty home run king, who is responsible not only for the thrilling baseball with which the picture is spiced, but also some excellent comedy character acting.

Opposite the sensational slugger is Anna Q. Nilsson, at her very best. The love affair worked out between the blonde Swedish star and Ruth is novel, comical, and at times touching; nothing of its kind has been seen before in all the screen's vast variety of romance combinations.

REV. BILLY SUNDAY,

DEMANDS \$500

Winona Lake, Ind., July 7.—(UP)—The Rev. Billy Sunday, the noted evangelist, told today of receipt of a threatening letter demanding \$500.

The letter, Rev. Sunday explained, was the reason for the posting of "a large number of policemen" around the evangelist's own auditorium here Wednesday night when he delivered a lecture on "Hold Fast That Which is Good."

Rev. Sunday had just returned from Bangor, Maine, when he received the letter. He said that it was obvious he would not comply with it.

Feminine Things Have Preference

Masculine Influence Wanes, According to Authority on Fashions.

By far the most important development in the styles of the present season is the tendency to return to feminine things. This may have been vaguely suspected a season ago, but only since a month or two has it actually come to be noticeable.

The masculine influence has gone to the limit. Women have so imitated men that if they were one step further they would wear trousers and put feminine styles out of existence, declares a prominent fashion authority in the Detroit Free Press.

The feminine note is apparent in the abundance of lighter tissues that are being used, in the return of great quantities of extremely décolleté gowns of mousseline de soie, in the return of tulle and the restoration of innumerable floating skirt effects.

The extremely narrow skirt, the extremely flesh-colored hose, the extremely low shoes—nearly all the extremes, in fact—have been introduced for evening wear. It is a sort of habit among the creators of Paris fashions to make their novelty's debut in the lights of the evening. A thing which might by daylight seem quite eccentric at first seems comparatively inconspicuous by night. Many evening gowns of vegetable velvet will be seen, and next season it will be used according to the success it enjoys.

There is very little change in the dresses of this season. The couturier is working with little that is actually new, which is wonderful, but the modiste who makes hats is more wonderful still, as she is making something out of nothing. With nothing fundamentally new, she seems always to be making something new!

Simplicity is what the well-dressed woman must seek. The thing that constitutes a "chic" woman is not to be named.

Women must bear in mind that there is no little thing about her "toilette"—that they are all big things, or, at least, they are all of equal importance. A dress should have a special pair of shoes nowadays. Mixing each day's costume to the point of destroying the possibility for originality and distinction to exist is as passe as the horse and buggy. The woman who can have each costume complete in itself with special accessories is sure to have it if she has the gift of taste. Certain problems are immediately presented by this proposition for those of modest means.

Frock of White Crêpe Is Striped With Black

Showing a winsome frock of white crêpe in which black is effectively used for contrast. The frock is becoming for informal wear.

Kasha Lined Raincoats Liked by Paris Women

Parisian women, who always have hated showers as unfashionable, are beginning to learn how to protect themselves against rain and still appear attractive.

They have taken suddenly to macintoshes, and on wet days the smart French women saunter forth wearing their raincoats with as much pleasure as they wear evening wraps. Paris designers have turned their attention to this particular garment.

On wet days the streets of Paris are as bright as tulip beds with many colored raincoats. Rainy weather costumes formerly were of colored leather. The new raincoats now are made with kasha or light weight wool linings so that they replace other coats on showery, cool days.

Biscuit Beige for Coats

One of the smartest spring shades is a biscuit beige. It is particularly effective for coats trimmed with matching fur.

Compose, Jacket Suit Featured This Season

The compose or jacket suit is a distinct feature of this season. Trim tailcoats with dark jackets and skirt of contrasting materials are much in the limelight for daytime wear. Gwen Lee, the motion picture star, in "Heaven and Earth," wears the attractive outfit here shown, and in which natural kasha, with a jacket of black velvet are most prominent.

Standardization Fad May Hit Foot and Footwear

Women's feet are getting larger. For generations the average size of the foot of the American woman has been 4B. But the modern girl has outgrown this standard, according to figures published by the Woman's Home Companion, and the average size at present is nearly half an inch longer and a full size wider than that of a brief decade ago.

Athletics, dancing and much walking on pavements are advanced as the principal reasons for the increasing size of the feminine foot.

Some accompanying information on footwear includes the fact that women's feet show less variety in size than formerly. Standardization is apparently in process of evolution. A great industrialist, asked how he would apply modern methods of mass production to shoes, replied that he would make only one style and only one size—the average—and compel all persons with feet larger or smaller than the average to go elsewhere and pay higher prices. Women with particularly big feet and men with particularly big ones may therefore some day have to go to the custom bootmaker, and, as the industrialist waggishly observes, "foot the bill as gracefully as possible."

On the other hand, this survey of feminine feet and footwear shows that hosiery is defying the standardizer. One large company which in 1920 carried 480 varieties—styles, colors and sizes—of stockings now has to carry 6,000, because fashion has decreed a profusion of colors. The latest idea, just being launched, is that instead of selling hose by the pair, they shall be sold in packages of three stockings to match—the "spare" is to be used in case of runs, rips or splashes. This is being advanced as an economy measure, like the extra pair of pants with father's suit. It was not necessary, however, in the old days when all the hosiery in a woman's wardrobe was black and interchangeable.

Buttons Must Work on Latest Spring Attire

Every button—and there are many—on the new spring things, must have its buttonhole and a part to play in actually fastening the dress. Rows of buttons are seen on coats and dresses but never as mere ornaments. They must serve some purpose to be smart.

Matching buttons and buckles are put out by Paris trimming houses for spring use. The buckle is almost as important as the button in the dressmaker's scheme of closing things.

Contrast in Slippers of Satin

A new note in fashion is revealed in slippers of satin to match the frock, but with contrast introduced in a double loop of inch-wide velvet ribbon which serves for a buckle. The contrast is always striking, such as violet and green, coral and blue, or purple and violet.

New Evening Coats

The evening coat is the latest garment to grow shorter, and Paris now says "three-quarters is the length." Made of metal brocades in very small geometrical patterns or unobtrusive stripes, the coats of the spring collections often hang free from the wearer in a graceful effect.

Suits of Jersey

For practical purposes as well as chic, few fashions are more satisfactory than a man-tailored suit of jersey in the smart new spring colors. The jacket is short and trim, as is the skirt, and the tailored blouse is of small patterned printed silk with a chemisier front.

By far the most important development in the styles of the present season is the tendency to return to feminine things. This may have been vaguely suspected a season ago, but only since a month or two has it actually come to be noticeable.

The masculine influence has gone to the limit. Women have so imitated men that if they were one step further they would wear trousers and put feminine styles out of existence, declares a prominent fashion authority in the Detroit Free Press.

The feminine note is apparent in the abundance of lighter tissues that are being used, in the return of great quantities of extremely décolleté gowns of mousseline de soie, in the return of tulle and the restoration of innumerable floating skirt effects.

The extremely narrow skirt, the extremely flesh-colored hose, the extremely low shoes—nearly all the extremes, in fact—have been introduced for evening wear. It is a sort of habit among the creators of Paris fashions to make their novelty's debut in the lights of the evening. A thing which might by daylight seem quite eccentric at first seems comparatively inconspicuous by night. Many evening gowns of vegetable velvet will be seen, and next season it will be used according to the success it enjoys.

There is very little change in the dresses of this season. The couturier is working with little that is actually new, which is wonderful, but the modiste who makes hats is more wonderful still, as she is making something out of nothing. With nothing fundamentally new, she seems always to be making something new!

Simplicity is what the well-dressed woman must seek. The thing that constitutes a "chic" woman is not to be named.

Women must bear in mind that there is no little thing about her "toilette"—that they are all big things, or, at least, they are all of equal importance. A dress should have a special pair of shoes nowadays. Mixing each day's costume to the point of destroying the possibility for originality and distinction to exist is as passe as the horse and buggy. The woman who can have each costume complete in itself with special accessories is sure to have it if she has the gift of taste. Certain problems are immediately presented by this proposition for those of modest means.

Frock of White Crepe Is Striped With Black

Showing a winsome frock of white crepe in which black is effectively used for contrast. The frock is becoming for informal wear.

Kasha Lined Raincoats Liked by Paris Women

Parisian women, who always have hated showers as unfashionable, are beginning to learn how to protect themselves against rain and still appear attractive.

They have taken suddenly to macintoshes, and on wet days the smart French women sally forth wearing their raincoats with as much pleasure as they wear evening wraps. Paris designers have turned their attention to this particular garment.

On wet days the streets of Paris are as bright as tulip beds with many colored raincoats. Rainy weather costumes formerly were of colored leather. The new raincoats now are made with kasha or light weight wool linings so that they replace other coats on showery, cool days.

Biscuit Beige for Coats

One of the smartest spring shades is a biscuit beige. It is particularly effective for coats trimmed with matching fur.

Compose, Jacket Suit Featured This Season

The compose or jacket suit is a distinct feature of this season. Trim tailcoats with dark jackets and skirt of contrasting materials are much in the limelight for daytime wear. Gwen Lee, the motion picture star, in "Heaven and Earth," wears the attractive outfit here shown, and in which natural kasha, with a jacket of black velvet are most prominent.

Standardization Fad May Hit Foot and Footwear

Women's feet are getting larger. For generations the average size of the foot of the American woman has been 4B. But the modern girl has outgrown this standard, according to figures published by the Woman's Home Companion, and the average size at present is nearly half an inch longer and a full size wider than that of a brief decade ago.

Athletics, dancing and much walking on pavements are advanced as the principal reasons for the increasing size of the feminine foot.

Some accompanying information on footwear includes the fact that women's feet show less variety in size than formerly. Standardization is apparently in process of evolution. A great industrialist, asked how he would apply modern methods of mass production to shoes, replied that he would make only one style and only one size—the average—and compel all persons with feet larger or smaller than the average to go elsewhere and pay higher prices. Women with the particularly dainty feet and men with particularly big ones may therefore some day have to go to the custom bootmaker, and, as the industrialist waggishly observes, "foot the bill as gracefully as possible."

On the other hand, this survey of feminine feet and footwear shows that hosiery is defying the standardizer. One large company which in 1920 carried 480 varieties—styles, colors and sizes—of stockings now has to carry 6,000, because fashion has decreed a profusion of colors. The latest idea, just being launched, is that instead of selling hose by the pair, they shall be sold in packages of three stockings to match—the "spare" is to be used in case of runs, rips or splashes. This is being advanced as an economy measure, like the extra pair of pants with father's suit. It was not necessary, however, in the old days when all the hosiery in a woman's wardrobe was black and interchangeable.

Buttons Must Work on Latest Spring Attire

Every button—and there are many—on the new spring things, must have its buttonhole and a part to play in actually fastening the dress. Rows of buttons are seen on coats and dresses, but never as mere ornaments. They must serve some purpose to be smart. Matching buttons and buckles are put out by Paris trimming houses for spring use. The buckle is almost as important as the button in the dressmaker's scheme of closing things.

Contrast in Slippers of Satin

A new note in fashion is revealed in slippers of satin to match the frock, but with contrast introduced in a double loop of inch-wide velvet ribbon which serves for a buckle. The contrast is always striking, such as violet and green, coral and blue, or purple and violet.

New Evening Coats

The evening coat is the latest garment to grow shorter, and Paris now says "three-quarters is the length." Made of metal brocades in very small geometrical patterns or unobtrusive stripes, the coats of the spring collections often hang free from the wearer in a graceful effect.

Suits of Jersey

For practical purposes as well as chic, few fashions are more satisfactory than a man-tailored suit of jersey in the smart new spring colors. The jacket is short and trim, as is the skirt, and the tailored blouse is of small patterned printed silk with a chemisier front.

Nature's Laws Unbroken

Two things found lately in reading I thought rather good: There is no such thing as "breaking nature's laws." We disregard the laws, and nature breaks us. . . . No one is so foolish as the man with good mind, who will not think.—E. W. Howe's Monthly.

Red Hair Not So Good

In the hope of exterminating or lessening what they considered a curse, the Egyptians, in the time of the Pharaohs, used to burn a red-haired maiden once a year, so violently opposed were they to hair of a red hue, says the New York Herald-Tribune.

Dialects in Christ's Time
